“ I have such fond memories of my “California” Dad when I joined some of the Cancun trips and visited them in California too. Al and Tory both made me feel like a part of their family from the moment I met them. My husband remembers one trip to CA iwhen he had to meet Al and Tory for the first time. He was on pins and needles because he knew if Al didn’t like him he was in trouble! But of course Al and Tory welcomed him with open arms and approved of their “daughter” dating him. Al will be greatly missed by our whole family and Tory we love you more than you know. May you feel our arms around you giving love and support. Lori and Ron Smith, Justin and Bryce Edwards

“ Al and Tory are both guardian angels. They were both by my parents' side when my dad got very sick then when my dad passed away 3 years ago they were both there for my family. I can remember the stories Al and my dad would talk about when it came to the Marine Corp. They were Marine Corp buddies. I can hear my dad welcoming Al up into heaven saying, "Semper Fi" or "Ooh Rah" with opened arms. Al you will be truly missed. We love you. Tory sending you many blessings and hugs your way. We love you.

“ *Al and Tory stood up for my late wife & me when we were married into the church. It was Holy Thursday, 2010 and Al took off work and Fr. Ben took time from his busy schedule to perform the services. Then we have have Tory, who took Linda"s hand a walked her through her 2 year RCIA journey. The Lara's middle name is service.
RIP my friend. God Bless you.*

I was walking to my car, after 8:15am mass & I saw Al in a w/c and several friends standing around him. I was experiencing some personal problems that day. We both smiled at each other as I held his hand and told him

" Al, you inspire me" Al responded with simply "take care Carmen
