“ Just thinking about you Grandad. I often look at my kids and think about you and my Dad that the Haden family as a whole. You left a phenomenal legacy and your impact on many of us younger Haden's. I find myself often sharing stories with my children and others about the things you accomplished. The term "The Greatest Generation" does not even come close to describing the impact you had for those you touched and the Country as a whole. You helped me to grow into the Man I am today. Of course I have had my ups and down in life, and have made mistakes like I am sure you did. But recognize that my downs were nothing compared to some of the things you were able to overcome and move forward. Eric
