“*Joan is my 3rd cousin. My great grand uncle, Owen Stuart is her great, grand father. His father Robert was our shared great, great, grand father, from Ireland, where I come from. We spoke many years ago when I was in Cleveland, Ohio, as I had found her via a genealogy search on Owen. I found information about him at my home after my mothers death. At that time I was not sure or I could not make the direct connection, so was not sure we were related. She sent me some small items, a letter and an invite to a wedding. I have now just got the linkage sorted out and we are related. So sad I could not share this with her. My sympathies to Howard and the family. She seemed a lovely person.*

“*Joan was one of the nicest people I ever met. My husband worked for her for decades. I really enjoyed the books she would send home with my husband. I spoke to her several months about purchasing her book Adobes, Bungalows, and Mansions of Riverside, California. She told me she no longer sold her books but had turned them over to the Riverside Museum and they would get all the proceeds from them. How deeply generous she was. She was going to see if she could find me a copy of the book I was looking for. Her writings were impeccable and her kindness unique. Her family and friends were blessed to have her in their life.*
