“ *My Grandma was such a strong woman who faced even the most difficult times of her life with grace and dignity. I am so honored to have known and loved such an amazing woman. She has been such a great influence on my life and has always been my motivator and support. One thing I have always admired of her was her willingness to accept others. She always would have people call her Grandma for that was her favorite job she ever had. She loved to help out in anyway possible and never complained. She was not only my Grandma she was my best friend.*
