“ *Deepest sympathy to Daryl-Ann from all of us in Arizona. Uncle Tom was a special man of deep spirituality and broad intellectual interests. I did not see him often enough but we still shared many emails on scientific, engineering and philosophical subjects. I was very lucky to be able to attend his memorial service and to observe the love of his many friends. It was a special evening, especially the closing music being Uncle Tom's favorite Tchaikovsky piece, the 1812 Overture. What a way to go out! Steve Battel writing for the Battel's of Arizona.*
