“ He was a role model and one of the best teachers I have known. He could give an entire lecture on obstetrics, on an 8 x 11 sheet of paper in the office in between patients, all of it, high yield information, and it made sense! He had a kind and gentle spirit, and truly cared about our success. I have so much respect and admiration for him, and I am grateful he made a difference in my life as one of my teachers at LLUSOM. He will be missed. My deepest condolences to his family.

“ Dr. Wilbert Gonzalez-Angulo was not only an exemplary physician, but also an excellent mentor, teacher; a doctor who was not only well read, but kind, caring and with a gentle heart to all who worked with him and especially his patients. I worked with him at General Hospital from going to delivers as NICU nurse to working in OB clinic. He personally took me under his wing to help me learn more regarding OB & OB Clinic. I got to know him on a personal level when our children were in high school. He was especially concerned when he learned his son wanted to date my youngest daughter. He was so caring, more about my daughter's welfare, and would ask me constantly if his son was cordial and proper. Dr. Gonzalez was a man of what I've read in a book titled: "A Man of Steel & Velvet" Condolence to the family. Carmela Duran

“ *Dr. Gonzalez was the most humble kind human being anybody could have met. I was his nurse 2000 to 2004 in Ob/Gyn Clinic. He was like a father to me at the time. He was always laughing with the doctors and the residents. I never seen him mad. A bit frustrated at times but never mad. I will always remember his contagious laugh. I will remember all the good times we all had working at Loma Linda Ob/Gyn. Our condolences to Mrs. JoAnn, his son's and the rest of his family. May you find peace. Thank you for sharing him with us and Thank you for letting my co-workers and I attend his service today. God bless*
